Sam J. Byrd, Jr.  
*Sam J. Byrd, Jr.*  
 Sincerely,

I firmly believe that a good staff, already in place in Crawford Central, can only be perpetuated and promoted by other groups for their own personal reasons. Looking at the past, current, and future enrollment in our district we could benefit greatly by having a more diverse staff. Diversity promotes understanding, respect, and appreciation for other ethnic groups by having exposure to dissimilar myths that have been made better by adding Minority staff when a position becomes available. I know that our administration is committed to hiring the most qualified candidates when a position becomes available. I personally know that there has been many qualified minority applicants that have applied for positions in our district. I urge you to give it your utmost consideration, when position(s) become available, to hiring more qualified minorities in our district.
